Education

B.R.A.C.T. Vishwakarma Institute of Information Technology, Pune — **CGPA: 9.07**
Bachelor of Technology in Computer Science and Engineering (Artificial Intelligence) — *2023 - 2027*

S.S.K College of Arts, Commerce, Science, Nashik — **Percentage: 82%**
HSC, Science Stream MHTCET: 97.79%tile — *2022 - 2023*

K.N. Kela High School, Jail Road, Nashik — **Percentage: 94.4%**
SSC — *2020 – 2021*

Projects

Anomaly Detection and Predictive Maintenance System — Feb 2025 – Mar 2025
Python, Scikit-learn, Random Forest, XGBoost, Pandas, Numpy, Matplotlib, Seaborn

- Developed a predictive maintenance system combining anomaly detection, RUL prediction, and intelligent scheduling, reducing downtime by **25%**.
- Achieved **98% accuracy** (XGBoost) and **97%** (Random Forest) for failure detection, ensuring robust anomaly classification and also implemented RUL prediction with $\mathbf{R^2 = 0.97}$, enabling accurate equipment lifespan estimation and proactive maintenance decisions.
- Processed and visualized over **10000** sensor data points for insights into equipment performance.

Digital Restoration of Indian Traditional Art using Deep Learning — Aug 2025 – Oct 2025
Python, PyTorch, U-Net, DeepFill v2, Stable Diffusion Inpainting (SDI), OpenCV

- Developed a deep learning–based restoration framework for Indian cultural artworks using **U-Net, DeepFill v2, and Stable Diffusion Inpainting**, trained on a custom dataset of **6,300 artificially damaged images**.
- Evaluated restoration quality using **PSNR, SSIM, and LPIPS**.
- Established a scalable pipeline for **digital preservation** of Indian traditional art, enabling high-fidelity restoration for long-term cultural continuity.

Exploring Laptop Specifications for Optimal Visualization — Feb 2024 – Mar 2024
Python, Power BI, HTML, CSS

- Analyzed **1,000 laptop specifications** to identify cost-performance trends for smarter decision-making.
- Created **10+ visualizations**highlighting optimal hardware choices.
- Designed interactive dashboards in **Power BI**, improving decision-making.

Skills

Programming Languages: Python, C, C++, JavaScript
Technologies: Artificial Intelligence, Machine Learning, Deep Learning (Scikit-learn, Pandas, NumPy, Matplotlib, Seaborn, TensorFlow, PyTorch), Data Science, Data Analysis (Power BI, Microsoft Excel, Tableau), Web Development (HTML, CSS), Databases (MySQL, MongoDB), Git, GitHub
Coursework: Data Structures and Algorithms, Object Oriented Programming, Operating Systems, Database Management System, Computer Networks, Linear Algebra, Probability and Statistics
Soft Skills: Problem Solving, Teamwork, Leadership, Adaptability

Achievements

Copyright Registration: Registered with the Government of India (Registration No.: L-156508/2024) for the work *"Exploring Laptop Specifications for Optimal Visualization."* Copyright Certificate

Certifications

- Basic Certificate Course in AI – CDAC Pune
- The Complete Python Pro Bootcamp – Udemy
- Microsoft Power BI – Unstop
- Data Science – Unstop
- Data Analytics – Unstop
- CCNAv7: Introduction to Networks – Cisco
